

Brittas
PENSIONAT

Come in!

Relax

Could it be the wonderfully comfortable sofas, or the little details to remind you of times past, or the crackling of the log fire that accentuates Brittas Pensionats' restful mood? Enjoy feeling completely at home here, yet far away from the usual pressures of everyday life.

Homely atmosphere

Have your conference at the fringe of the forest, right beside the Luleälv river. With no distractions to disturb your work, your creativity can really be set free. We take care of these sugges-

tions, surprises, indoor and outdoor activities, entertainment and much more.

Accommodation is in bright, individually furnished rooms, with views over the Luleälv river.

Taste of the wilderness

Brittas Pensionat serves nothing but local fare, with produce from the woods and mountains. Reindeer, elk and fish are always on the menu.

You can try your hand at baking the region's typical soft, flat bread in the wood-fired oven, or you can put together your own pizza. On weekdays we have a lunch buffet with a large selection of salads, and we also serve waffles.

Parties with the personal touch

Weddings, staff parties, birthdays, christenings, wine-tastings... Here at Brittas Pensionat, special occasions are always memorable. When Britta starts the karaoke machine and clears the floor for dancing, the atmosphere really heats up. The local revue group adds yet another boost to your party, and laughter takes over completely.

Down to the spa

Round off the day in our spa, which has a wood-fired sauna and an electric sauna, bathtubs and showers. Right outside there's a wood-fired hot tub where you can sit immersed in the warm water while watching the stars and the northern lights.

"An extremely warm and hospitable, attractive and inspiring place to stay."

Participants of the weekend course "Pictures as language"

"Great accommodation and perfect service."

Euro Top Ski University

"Awesome – we'll be back!"

Östersund's Ski College

"Thanks, Britta, for a fantastic welcome. A wonderful place."
